SAVAGE RIVER OPERATIONAL UPDATE

Grange Resources Limited (ASX: GRR) (“Grange” or “the Company”) is pleased to advise that, following recommissioning that commenced on 27 April, the Autogenous Mill # 1 at Savage River has now returned to its normal production rate of 2.5mtpa of magnetite concentrate. The mill went offline on 26 February when cracks in the mill shell were identified during routine preventative maintenance procedures. The repair work was completed ahead of schedule and without incident.
